

**Universal Air  
Travel Plan**

## Benefits for Travel Agencies

Working with UATP helps to strengthen loyalty between you and your corporate customers.

Travel Agencies can process service charges, net fares, and other travel related transactions via Merchant e-Solutions, JetPay and Pinnacle Payment Solutions or may accept UATP as a Merchant by joining the UATP network directly. The connection is easy and is no cost to you.

- **Lower Cost:** pay a low merchant service fee on all UATP transactions, as compared to the higher rates charged by other T&E cards
- **Increase Corporate Market Share:** earn revenue from global corporations that use UATP exclusively as the preferred form of payment for business air and rail travel
- **Increase Business as a Travel Reseller,** accept UATP for travel packages and agency service fees
- **No Cost to You:** merchants pay no membership fees or annual dues
- **Save time:** UATP automatically reconciles the agency service fee with the corresponding airline ticket; enabling the corporate customer to efficiently track all charges
- **Receive payments weekly** into bank account of choice when settling directly with UATP
