

THE COMPREHENSIVE STAFF TRAVEL MANAGER

**ADNAN MOASHER**  
flight engineer, en route to NJ for business conference

**SIMONE YEOH**  
air hostess and music lover on tour

**CAPT. MCCARTHY**  
aircraft pilot on holiday, mixing business with pleasure

**iFly - setting new standards in staff travel**

**HEATHER GRAHAM**  
IT manager, taking newborn to grandma in LA

#### advantage HR!

A self-serviced facility has made life easier for the staff as well as the HR department. The fully configurable staff travel rules manager has made our travel policy definition easy. Better utilization of staff travel benefits has resulted in a marked improvement in morale and motivation. A great relief for me!

# Setting new standards in staff travel

High levels of staff motivation and commitment, along with fiscal discipline, are vital factors for success in the airline industry today. iFly, the staff travel management solution from IBS, improves the value chains in the staff travel space, reducing costs while improving staff convenience, morale and productivity.

Web-based and built on cutting-edge technologies, iFly automates the leisure travel and duty travel functions of airline staff, and dependants located worldwide. The system assists the staff travel department in automating the entire gamut of activities, including staff travel on other airlines and corporate travel management. User-friendly and user-empowered, the system is designed as a complete staff travel manager equipped to meet airlines' current and future business needs.

## iFly - the value proposition

### PROVIDES A SELF-SERVICED ENVIRONMENT FOR STAFF TRAVEL

A self-serviced online environment helps staff to manage their leisure travel entitlements and create bookings directly, thus reducing associated costs and work load on HR/staff travel departments. iFly eliminates the stress of organizing staff travel, giving access through internet links at home, at leisure, through staff kiosks or office terminals.

### IMPLEMENTS YOUR STAFF TRAVEL POLICIES WITH EASE

A flexible and fully centralized Staff Travel Rules Manager helps define staff travel policies, ensuring strict adherence to eligible entitlements. The system can also maintain interline travel agreements.

### INCORPORATES BEST PRACTICES

Developed in collaboration with several airlines and consultants, iFly incorporates industry best practices from a collective learning of airline staff travel policies and norms. iFly implementation helps to re-engineer and simplify processes.

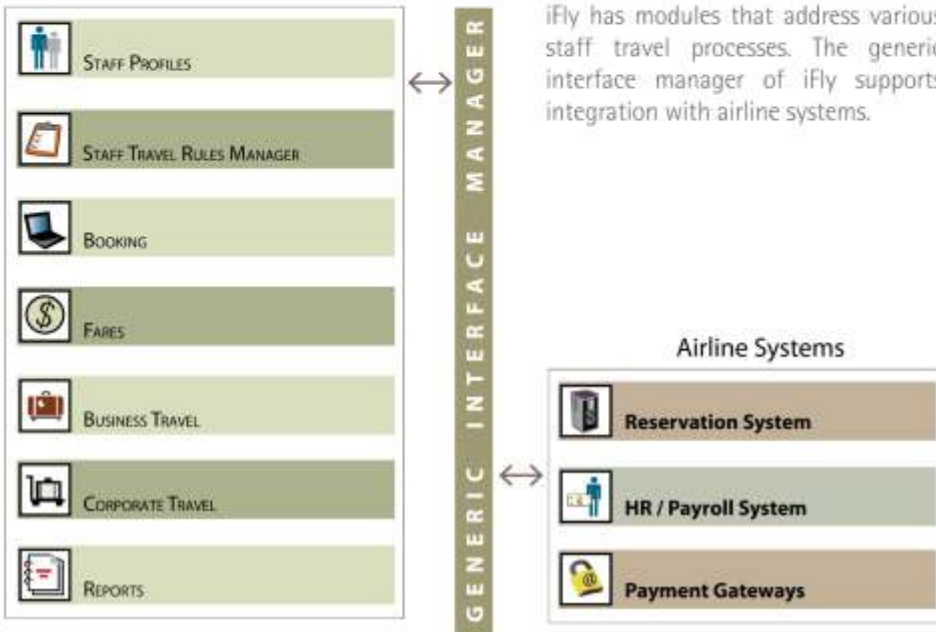

### INTERFACES SMOOTHLY WITH AIRLINE SYSTEMS

iFly integrates seamlessly with Reservation system, HR/payroll system and payment gateways, ensuring complete automation. IBS' vast experience in the air travel space particularly in airline reservation systems as well as integrating disparate HR/payroll systems and payment gateways has given us the clear edge.

### ACHIEVES SPEEDY RETURN ON INVESTMENTS

iFly reduces staff travel administration costs and saves on employee working hours, leading to greater productivity and revenue generating opportunities. iFly guarantees a payback period of less than 12 months. Our staff travel domain consultants can help assess the ROI potential for your organization.

### iFly - Functional Architecture

iFly has modules that address various staff travel processes. The generic interface manager of iFly supports integration with airline systems.

#### advantage Staff !

The excitement and charm of a holiday would be lost waiting for an unpredictable booking. Our management took a good decision in implementing iFly.

I can now -

- plan holidays with my family and make bookings even from home over the internet
- manage and utilize my travel benefits with ease and greater certainty

#### advantage Finance !

IT investment in Staff Travel was low on the priority list for us. But the quick payback and long term savings convinced me to go in for iFly. The return on investment is now measurable in terms of -

- increased productivity per employee
- reduced administrative costs
- increased inventory utilization

### iFly - Staff Travel

**Leisure :** Staff can view travel concessions available for themselves and their travel designates and make/amend bookings online. Since zone fares and interline travel agreements can be maintained in the iFly system, staff can also create interline travel bookings.

**Business :** Staff can route their business travel requests through the iFly business travel workflow and create bookings for approved business travel.

### iFly - Corporate Travel

The airline can offer corporates the facility to directly create bookings on the airline's reservation system. The iFly corporate travel module allows online registration of corporates and maintenance of their travel rules.

The IBS Group (IBS) is a leading provider of new-generation IT solutions to the global Travel, Transportation and Logistics industry. A specialist in the domain, IBS offers a range of products that manage mission-critical operations of major airlines, airports, oil and gas companies, seaports, cruise lines and tour operators worldwide.
